Which Business Landscape?

What is changing?

What Response?

What aspect of Response?
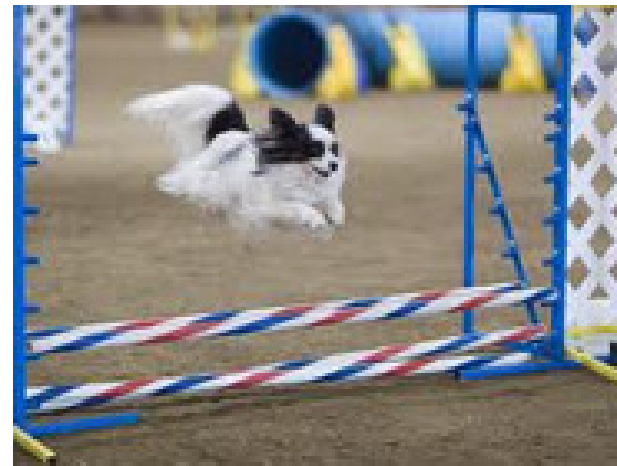

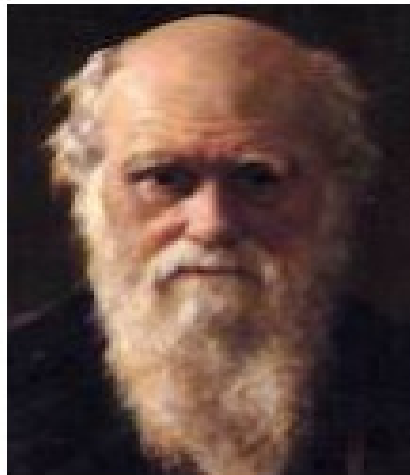

Let's talk about Testing !!!

What help we need from testing?

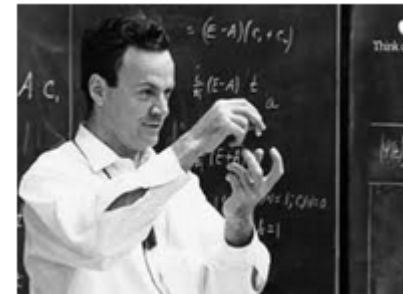

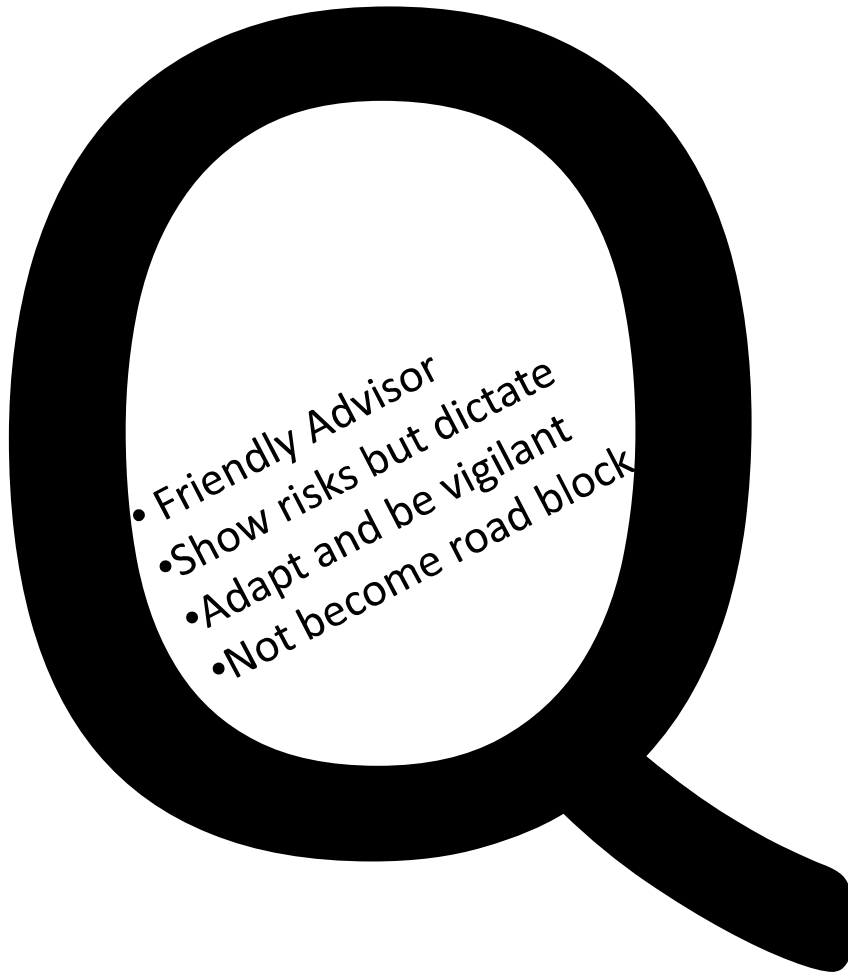

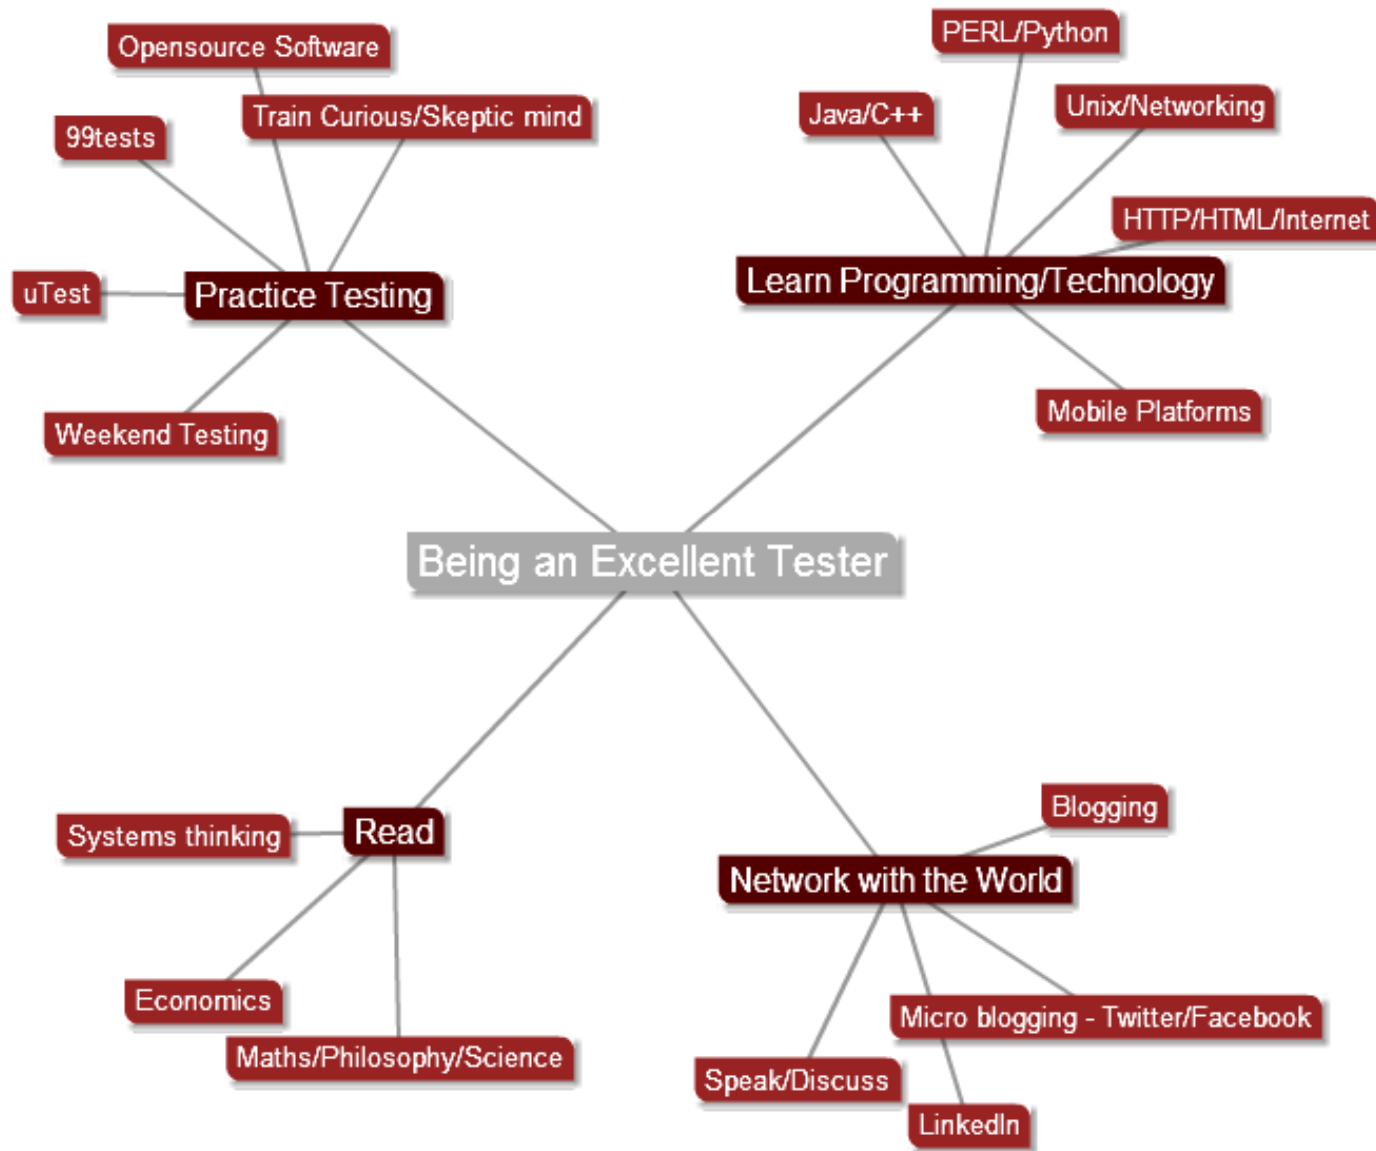

IMAGINE

- Friendly Advisor
- Show risks but dictate
- Adapt and be vigilant
- Not become road block

Without

Testing

Suggestions for Testers

Closing Remarks

- Today's businesses are operating in a complex web of social, economical and cultural systems
- Agility – ability to respond to change, flexibility and maturity to adapt is an important aspect of business' ability to survive and prosper
- IT systems, technology and testing in particular need to gear up for the challenges
- Testing when applied right can help businesses to be agile
- Sensitive and Responsive management
- Alert, curious, skeptic, intelligent tester
- Lean and Just-enough systems and processes in between

Thank You
